eCATALYST OVERVIEW

eCatalyst Healthcare Solutions is a health information management, business process outsourcing, and consulting company. eCatalyst was founded in 2007 to deliver exceptional business process outsourcing and customer service to healthcare clients nationwide. Our corporate headquarters is in Phoenix. We are a women-owned business and in the process of receiving official certification.

eCatalyst serves all types and sizes of healthcare organizations from small rural hospitals to urban integrated healthcare delivery systems, and from independent physician practices to large multidisciplinary clinics. We serve the full spectrum of healthcare delivery models.

WHAT SETS US APART FROM OUR COMPETITION?

The quality of our people, represented by their qualifications, certifications, commitment to quality and compliance, and exceptional focus on client results is what distinguishes eCatalyst from other healthcare service providers.

Our services are guaranteed, this means quality, compliance, productivity, and turnaround. You set the metrics and we will meet or exceed them.
